

It Happened TODAY

People

Radio crooner Rudy Valle celebrated his 45th birthday at the home of his fiancée, Eleanor Kathleen Norris, 21-year-old U. of California psychology student. They plan to be married in September.

RUDY VALLE

Under a 220-year-old oak, King George VI gave his official consent to the marriage of his nephew, the Earl of Harewood, and Australian-born pianist Marion Stein. Harewood is 11th in succession to the throne, and by the act of 1972, any possible successor must obtain the King's approval before marrying.

Lawrence A. Steinhart, U.S. ambassador to Canada, is building in western Canada with his wife and daughter. Right now, he's spending three days fishing at Jasper National Park.

Places

It almost always rains on July 29 in Waynesburg, Pennsylvania—so often in fact, that a lot of people bet good, hard cash that it will. And no wonder, because in the last 72 years July 29 has been dry only six times. But this year makes it seven. The sun smiled and even though citizens were raincoat-clad, and even hip boots all day long.

In the gambling state of Nevada, the Hotel Last Frontier in Las Vegas introduced chemin de fer to its customers as a gesture of courtesy toward Monte Carlo, which recently succumbed to a crash. The hotel said it put in the game for the convenience of European customers.

Grim Reaper

Near Wapella, Sask., two men died as a result of an accident while drilling a farmer's well. Gilbert Gray, 18 and Howard Lloyd Potter, 22, were overcome by fumes from dynamite used in blasting the well.

Death must have been looking the other way for 33-year-old Lorn Davall, of Eastend, Sask. Davall was driving a caterpillar tractor, scraper and caboose when a bridge collapsed, sending him 20 feet into the Eastend river. Landing in three feet of water, Davall was rescued by just one foot when tractor fell, scraper missed too, and caboose landed on top of them, just above his head. All Davall got was bruises.

Europe

General crop prospects in Europe are relatively favorable, says the U.S. agriculture department has reported.

bread grains—a major import item—will be below average, but hay and coarse grains are good.

It looks as if the big Paris fashion show may go on after all. Worried Paris designers postponed the fall showings when 14,000 needworkers went on strike this week, for higher pay. But the seamstresses are drifting back to work, and the show will probably go on as scheduled.

Canada

Sudden gales lashed Ottawa yesterday, snuffing communications and knocking down trees with 60-mph-an-hour winds. All four of Ottawa's district radio stations were put off the air by the storms which roared up suddenly out of a three-day heat wave.

Crime

In Washington the secret service reported that arrests for counterfeiting in the 1949 fiscal year were 21 percent above 1948. Most of the criminals were first offenders, leading federal agents to believe that only a few old-time counterfeitters are still alive.

AMBASSADOR STEINHART

In San Francisco ancient pearl-studded bracelets and anklets valued at \$25,000 were stolen from native chieftain Eddie Teo, of Samoa. Said the chief, "I have already wired my people to dive for more pearls."

Polio

A St. Louis doctor says the common gonorrhea mule may have something to do with spreading infantile paralysis. Dr. L. E. Rector, of Washington University, says mules have shown unusual susceptibility to the polio virus in laboratory inoculations. And mules are found in almost every country in the temperate and tropical zones.

Animals

Under new California law a milk cow can no longer be auctioned in that state unless she has been milked within the preceding 12 hours.

Elmer the bull is dead. Impressed 21 days in a railroad coffer recently, Elmer had lost 600 of his 900 pounds while caught. His farmer owner fed him well on eggs, vitamins and oats after he was freed, and although Elmer gained 150 pounds, the experience proved too much for him. His carcass is en route to the rendering factory.

American Attitude Worries Europe

Soviet Threat Less Urgent In Face Of U.S. Position

By R. H. Shackford

LONDON, July 30.—(U.P.)—Western European leaders, who a few months ago worried over the possibility of Russian aggression, are more worried today about the United States attitude on foreign aid and the seriousness of their own internal problems.

Officials are worried also about the obvious lack of the west, appeared to be on the offensive in the cold war. The punch has been taken out of that offensive, in the opinion of people over here, by many events which disturb Western Europe more than do the Russian, who appear to be sitting back and enjoying the west's slowness. These events include:

1.—The long American debate and delay in ratification of the Atlantic Pact, which made final American action an anti-climax so far as propaganda value was concerned in Western Europe.

2.—The British economic crisis and the growing and unhidden disappointment of Americans over the failure of the British Labor government to get itself on its own feet. Britain's implicit request for more rather than less Marshall Plan aid this year has been a bitter blow to Anglo-American economic relations.

3.—The "ruling classes" of the Anglo-American imperialists are trying to stir up a "false crisis" to maintain international tension and the cold war.

4.—The "ruling classes" of the Anglo-American imperialists are trying to stir up a "false crisis" to maintain international tension and the cold war.

5.—The "ruling classes" of the Anglo-American imperialists are trying to stir up a "false crisis" to maintain international tension and the cold war.

6.—The "ruling classes" of the Anglo-American imperialists are trying to stir up a "false crisis" to maintain international tension and the cold war.

7.—The "ruling classes" of the Anglo-American imperialists are trying to stir up a "false crisis" to maintain international tension and the cold war.

8.—The "ruling classes" of the Anglo-American imperialists are trying to stir up a "false crisis" to maintain international tension and the cold war.

Chinese Reds Facing Charge

(Continued from Page 1)
not reported for weeks today lest a general lock-in developed.
Thirteen staff members remained in the building, but the rest of the staff were ordered to leave.
The state department in Washington said the Communist police "flatly refused to interview" after mobs seized the consulate yesterday.
The seizure brought troubled United States relations with the Chinese Communists to a new low today.
The incident was the most serious since the Communists seized control of the port city two months ago.

It came on the heels of a warning by secretary of state Acheson that remaining Americans should get out of China immediately if possible—or face the danger of being treated as hostages.

NOT CLEAR
What effective steps might be taken to deal with the new incident were not immediately clear.

The Communists have not yet set up a central regime for the North China and Yangtze Valley areas. American protests, directed to military commanders at Shanghai, Nanking, Peiping and other cities, have been fruitless.

A state department spokesman said it was clear that the Communists had failed to protect the consulate or to maintain "even the semblance of what the civilized world regards as minimum standards of discipline and order."

Thirteen American consular officials and 35 Chinese employees were locked in the consulate when the mob took over. The bulk of the horde was composed of former employees of the U.S. Navy in Shanghai, who are demanding that the United States pay them for a work period subsequent to the navy's departure from Shanghai plus bonuses.

QUEBEC, July 30.—(C.P.)—Grasshopper nuisance had reached "epidemic proportions" in Quebec province, department of agriculture officials said yesterday. Exact figures of losses to crops were unavailable.

4.—Increasing public admissions that the Marshall Plan apparently was "oversold" to the world as a scheme that would put Western Europe back on its feet and relieve the United States of the job of pouring more dollars into Europe.

It is obvious now that the dollar crisis will not be over by 1952, the target date set in the Marshall Plan.

Against the background of these western problems in the economic and political fields, Moscow radio is daily grinding out thousands of words of propaganda which says in effect:

1.—The American depression now is under way and it will not be long before the "Imperialist Capitalist System" collapses.

2.—The American people are fed up with the continued Communist scares and the best proof is the reluctance of Congress to vote new millions for Western Europe.

3.—The Marshall Plan is a failure. Britain's crisis is the best proof, plus the wrangling among the Marshall Plan countries themselves.

4.—The American depression now is under way and it will not be long before the "Imperialist Capitalist System" collapses.

5.—The American people are fed up with the continued Communist scares and the best proof is the reluctance of Congress to vote new millions for Western Europe.

6.—The Marshall Plan is a failure. Britain's crisis is the best proof, plus the wrangling among the Marshall Plan countries themselves.

Young Hoodlums Arrested In Toronto

TORONTO, July 30.—(C.P.)—Ball was fixed at \$10,000 each today for seven youths charged with assault and robbery of 30-year-old William Edwards on Sherbourne street in east central Toronto this morning. Doctors worked for more than 90 minutes to revive Edwards, who was found lying in a doorway with severe head wounds. Edwards was robbed of \$25. Shortly after Edwards was found, police arrested the seven youths in a free-for-all struggle.

Churchill Rapped For Party Spite

(Continued from Page 1)
"How disgraceful it is," declared Attlee, "to try and make people believe that all our difficulties are due to capitalist mismanagement."

UNSUPPORTED CHARGES
The prime minister said the published policy statement issued last week by the Conservative party made "utterly unsupported charges."

He added: "Having heard Mr. Churchill's violent words about this country had been brought to a job in its fortunes and ruined by the Labor government you would have expected the Tories to propose cutting down expenditures."

"But on the contrary, on page after page of this document they demand increases—there is a lot of talk about reducing extravagance but not a single practical suggestion."

Attlee described the Tory policy statement as "elaborate window dressing."

SOLID ACHIEVEMENTS
"Against these promises we set the solid achievement of four years of Labor government," he said. "We

Annual Holiday Offers Varied Entertainment

Edmontonians Will Enjoy City and Lakeside Sports

Edmontonians prepared Monday with sunny weather by the weatherman.

Thousands of citizens prepared to take full advantage of the long week-end by heading for beaches and other resorts within motoring distance of Edmonton.

One of the highlights of the Civic holidays will be the annual regatta at Seba Beach on Lake Wabamun about 34 miles west of Edmonton.

Up to 400 are expected to compete in the many events on the regatta program which includes sailboat, motorboat racing and surf board riding.

Regatta is under the direction of Dr. Lee Douglas, Mayor Charlie Clarke of Seba Beach village and the village council co-operating to make the event a success.

Midnight frolic and dance, starting after 12 Sunday, is another highlight of the event.

Bus lines and railways report heavy ticket bookings for services out of Edmonton to provincial resorts.

Special baseball meets and other events are billed at Athol Murray on Lac Ste. Anne, 42 miles west of the city.

He is the story of 20 years' service with the greatest catering company in the world, whose proud name carries the royal crest on packages of cakes, Christmas puddings, chocolates and other Lyons' products.

That company whose Caddy Hall at Kensington, London, covers over 14 acres of land, has catered to functions at Windsor Castle and Buckingham Palace and has carried out some of the world's greatest catering contracts.

Mr. Mulligan is in Edmonton in the course of a tour of the States and Canada to arouse interest in food parcels to Great Britain. His company prepares special packages of the foods that are so well-remembered in Britain—cakes, dried fruit, rice, sugar, chocolate and table jelly.

For he says, "during the war has been ever for four years the country is rationed more strictly than ever."

Even without speaking of the Royal Family, however, Mr. Mulligan has an interesting tale to tell. He is the story of 20 years' service with the greatest catering company in the world, whose proud name carries the royal crest on packages of cakes, Christmas puddings, chocolates and other Lyons' products.

on the TOWN

By J. D.

The Missus looked at me in disgust and said: "The trouble with you is you don't know whether you're coming or going."

The little complimentary one-way conversation was addressed to me on the train between Edmonton and Vancouver a couple of weeks ago.

I was experiencing one of those maddening frustrations of being completely turned around.

Everything went fine until I crawled into my berth in the sleeper soon after the train left Blue River.

When I got up next morning I started for the men's room in the wrong end of the car. As a matter of fact the providential meeting with a lady coming out of what I thought was the men's room saved considerable embarrassment.

I looked out the window. We were swaying around those hairpin curves in the Fraser River canyon. I was certain we were going straight east, back toward Edmonton.

GET SILLY IDEAS

I felt like reaching up for the air sign, read and stopping the train. I was certain we were headed in the wrong direction.

But I really knew better. The train crew was right. It was me who was wrong.

Getting turned around on a journey always makes me furious.

The recent coast trip I had twice as mad as usual, because the missus had a smirk of superiority on her face when I mentioned my predicament and came out with the crack I have previously mentioned.

By the time I got to Vancouver everything was O.K. again. We had been headed for the west coast all right.

Strangely enough I kept my sense of direction intact all the way to Australia and back aboard the Empress of Sydney.

But a lot of people get turned around. One fellow told me he gets mixed up every once in a while right here at home.

And this friend is a non-drinker too.

EVERYTHING EXPLAINED

I phoned a doctor friend to get the medical theory on this mixed-up-direction business.

"Ah yes," said the learned medical man with that delightfully detached professional air.

"There are many factors involved. In some cases there are certain disturbances in the semi-circular canals of the ear brought

EDMONTON BULLETIN, Saturday, July 30, 1949

Injured Man Hospitalized

Heater Ouellette, 55, is in serious condition in hospital here after having one arm torn off in an accident at a Lac la Biche sawmill yesterday.

He was flown to Edmonton by an RCAF mercy mission plane.

Ouellette, a head planer, was injured at an Imperial Lumber Co. Ltd. sawmill about 25 miles from Lac la Biche. He was rushed through bush country to the town on a railway special motor. Company officials immediately wired a distress message in their head office in Edmonton.

The RCAF, responding to the call for help dispatched the Canoe to the far northern Alberta settlement. Pilot of the aircraft was Sgt. Ldr. Tommy Bennett of Edmonton.

The medical officers aboard, Sgt. Ldr. J. M. O'Brien, both of Edmonton, gave Ouellette blood transfusions before the injured man was taken aboard the plane for the return flight to Edmonton.

Officials at the Royal Alexandra Hospital here said this morning the injured man's condition is improving.

on by emotional disturbances in the brain.

That, of course, made everything just about as clear as the water in the Saskatchewan river in flood season.

But he did become a bit more lucid later. He said extreme concentration may cause a person to become turned around. There was a stunning blunder on the train that day I went to the coast.

North Atlantic Pact Approved By Italy

ROME, July 29.—(AP)—The Italian Senate approved ratification of the North Atlantic Treaty last night by a vote of 175 to 81.

The Senate then completed Italian parliamentary action on the pact by approving with a show of hands a law specifically authorizing the government to ratify the alliance with the western powers. The Chamber of Deputies approved ratification last week.

Builders Miss Civic Holiday

Edmonton's building boom refuses to be interrupted, even for the traditional civic holiday Monday.

We can't afford to take time off, says Edmonstone Building Exchange spokesman J. L. Mathias today. "I don't know of any building work being stopped."

One who works only single time says: "Under the city charter, the mayor may declare a holiday any day, and it is traditionally the first Monday of August. But the city has control over retail stores. Other enterprises fall in or out of line, according to individual owners."

Banks will be closed, as well as large offices. All civic offices will be closed. Postal deliveries will not be carried out.

But the morning milk will arrive on the front steps as usual.

And home and home will open on regular holiday service, which is defined in an R.F.S. order as "better than Sunday service, with early morning runs to accommodate those who have to rush to work after 11:30 a.m., regular service on all routes except those which are closed for the day."

AND ALSO WE DON'T COUNT COWS

The population food between Edmonton and Calgary spluttered forward another step today.

Calgary Board of Trade released figures showing Greater Calgary's population as 129,011.

Not Edmonton Chamber of Commerce dampened the game. The figure is 108,235, an increase of 12,636 or 11.7 percent from the 1946 Edmonton census.

Edmonton's population within city limits is 137,409, a jump in only one year of 10,963 or 7.9 percent.

Edmonton's population within city limits is 137,409, a jump in only one year of 10,963 or 7.9 percent.

Edmonton's population

What the Public Wants

The decision of the Board of Public Utilities on the restoration of the seven-day milk delivery should and probably will be made next Tuesday on the basis of what the majority of the public demands.

The only way a decision favorable to that restoration can be hoped for is through a full representation of public opinion at the hearing.

The Board obviously cannot give the public what it wants without hearing those who want it fully and emphatically before it.

The health department of Edmonton has already gone on record as opposing the six-day delivery as dangerous to the health of those 35 per cent of Edmonton families that have no refrigeration.

The health department should be prepared to lay that view firmly before the Board on Tuesday.

The Community Leagues have opposed the present system.

They, too, should be on hand in force

to make their complaint against the curtailed delivery formal and official.

The Home and School Associations are in the same position. They also should be strongly represented at the hearing.

The Canadian Association of Consumers is said to be preparing a brief and will present it on Tuesday.

A large public attendance at this hearing, which The Bulletin has urged on more than one occasion, is all the more necessary now that the delivery men and the dairy companies, previously declared to be "neutral" in the application, will very likely appear to oppose the restoration of Sunday delivery.

The point is that the Board should act, not on what the dairies want or what the delivery men want, but on what the great majority of the consumers want and need.

The needs of the public should come first.

But the public must speak for itself. It should be fully represented on Tuesday.

Sentences That Fit the Crime

A man found guilty in Bronte, Ontario, of a crime against two 14-year-old girls has been sentenced to be whipped.

A man found guilty in Winnipeg of a criminal attack on a 12-year-old girl has been sentenced to life imprisonment.

These two sentences indicate that in two magistrates' courts, at least, a proper view of the seriousness of sex offences is being taken.

Certainly the ordinary sentence of a few weeks or months for these abominable crimes is inadequate and intolerable.

Sex offences are serious, not only be-

cause of their own inherent dreadfulness, but because the sex offender, as a matter of police records, always goes on to greater and more desperate crimes.

Every act of indecency is a potential murder.

The proper way to deal with these criminals, as has been frequently urged in these columns and elsewhere, is to put up a special psychiatric institution where these people may be kept and treated until they are adjudged cured.

Meantime, life sentences, as handed out in Winnipeg, make a good stop-gap.

Tourists and the Yellowhead Route

If the provincial government is missing no bets, as a news report says, in promoting Alberta tourist traffic, it will exhibit its support to the Yellowhead route of the Trans-Canada Highway as the most potent tourist feature this province could possibly have.

It has been reported that the tourist publicity department of the government has been making two films for showing in the East and to the United States.

One of these depicts scenes at the Edmonton Exhibition and the Calgary Stampede.

Now this is interesting and intelligent publicity and should have good results.

But the attraction that would actually

bring American tourists into this province by the hundreds of thousands would be a national highway connecting with the Edmonton oil fields and the Alaska Highway which of all Canadian tourist attractions are best known throughout the United States.

Only the Yellowhead route makes those connections.

Only the Yellowhead route is of major tourist value to this province.

When you add to that fact the further circumstance that the Yellowhead route is the cheapest of all to build and maintain by a ratio of one to three, it is difficult to understand why the provincial government does not give that route its unhesitating and unqualified support.

The Gift of God to Men

Writing to the Church at Rome, St. Paul included this perplexing passage in his letter:

"But now being made free from sin, and become servants to God, ye have your fruit unto holiness, and the end everlasting life. For the wages of sin is death; but the gift of God, eternal life, through Jesus Christ our Lord."

The significant point in these sentences and one every Christian should thoroughly understand is that immortality is not the right of man nor a privilege that follows naturally upon this earthly existence, but a special gift to man from God Who made him.

The Bible records that Adam, or the first members of the human race, was in full accord with God and his existence was to be unending.

But man was tempted and fell. He became acquainted with sin. And having known sin, he properly inherited a tendency to sin which the theologians call "original sin."

Through this tendency, all men forfeit their right to eternal life.

But Christ, the Second Person of the Holy Trinity, won back for them the privilege of passing into another life after this one.

Christ won back that right for them because He died on the Cross for their sins.

Thus, although every man is condemned to death by his sin, he is redeemed through Jesus Christ and may enter upon eternal life by believing in Christ and obeying Christ's commandments.

ODDS AND ENDS

By Harold L. Weir

Lawyers Play Important Part in Civilized Life

The Canadian Bar Association opens its 31st annual convention in Banff tomorrow and the news columns inform us that this is the 100th Edmonton Judges and lawyers will attend. There are those who think that the legal profession that they will be attending is a waste of time. They are wrong. The local ranks of the lawyers will be temporarily depleted and they will undoubtedly spend a more restful week-end as a result.

It is this prejudice against lawyers that I should like to discuss for a minute or so today.

The lawyer is probably the butt of more bad jokes than even the much-abused mother-in-law.

And I think it is uncharitably true that a good many people firmly believe that a lawyer is no more than a crook with a special training in getting away with it.

As a matter of fact, the old copybook saws and maxims contained many sound warnings against the legal profession.

And those who would seriously eat an apple day to keep the doctor away would consume broken glass and lumpy nails to avoid falling into the clutches of a man of law.

Ridiculous prejudice to a stupid and dangerous thing, not only because it does an injustice to an honorable and essential profession, but because it tends to pervert the normal and

wholesome view of human nature.

What I mean is that a lawyer, as a judge, is only a symbol of the law.

If the law is sound and benign, lawyers and judges will be sound and benign.

If the law is fantastic, verbose and unworkable, judges and lawyers will tend to follow the same pattern.

Thus, to attack the integrity of lawyers is to attack the integrity of the law.

And if we attack the integrity of the law, we attack the integrity of ourselves, because this being a democracy, we make the law.

The fact is that lawyers are one of the vital factors in the preservation of human life.

For the law, if you stop to think about it, is not designed to punish, but to guide.

It is important, not insofar as a device what a man may not do, but insofar as it tells a man what he may do without let or hindrance from others.

Thus, a good law contributes to the freedom of man.

And by "freedom" I do not mean that license which is an after-thought for freedom, but spiritual freedom which is the only freedom that has reality.

Officer Of Law

Now the duty of the lawyer is not to evade law but to uphold law.

When he takes his oath as a solicitor or a barrister, the young lawyer swears to maintain the law of the country.

And whether he appears in court for the Crown or for the defence in a criminal action, he is still a law enforcement officer or an officer of the court, which is pretty much the same thing.

The fact is that law could not be enforced without lawyers.

The lawyer educates himself with the equitable interpretation of law. The policeman concerns himself with the literal interpretation of it.

And while a policeman is just as susceptible to error as a lawyer, the only difference between a police state and a democratic state is that in the latter the legal profession stands between the individual and the mechanical operation of the law which can inflict injustice as readily as it can confer justice.

The legal profession is absolutely necessary to the intelligent and benign operation of law as an instrument of human freedom.

An insurrection against Turkish authority has broken out in the Aegean Sea.

About 200 members of the Canadian Medical Association left Banff today for the annual convention at Banff.

Winnipeg photographs were taken for taking pictures on Sunday.

More British troops are being sent back to Africa.

An electric car was blown up by strikers at Cleveland.

King Edward's statement in London at a banquet that he looked with hope upon the future constitutional development of Russia is said to have made a big impression upon the Czar.

It is said the Czar will be convinced soon. It has even been rumored that an amnesty is to be granted to certain political prisoners.

Strathcona taxpayers yesterday endorsed the money bill to raise funds for a new fire hall.

Lawyers, in short, are not bad people.

They are a few of them pick pockets.

The Thrill That Comes Once In A Lifetime

Letters to the Editor

Midway Rackets

Editor, Bulletin—Unmotivated by any desire for revenge, or personal malice, I wish to make a few pertinent observations regarding the Edmonton Exhibition here we are subject to another "invasion" in 1950. There is much to commend this annual event. I do not depreciate the values derived from the educational exhibits, the industrial displays, the agricultural fair, the legitimate advertising, the thrilling rides, the high-quality grandstand entertainment and the all-pervading atmosphere of gaiety. All this, however, fails to condone the nefarious practices tolerated by both the city fathers and our provincial guardians of justice who have initiated minor reforms against many less harmful practices.

Ordinarily, a private citizen engaging in any one of the various shady devices common on the midway, would find himself behind bars in twenty-four hours. Yet certain leeches there, are allowed to entice unsuspecting tourists and fleece them by taking advantage of their credulity and the hope that the "gambling joints" offer them a reasonable chance to win.

If such shady business is allowed to continue untrammelled, it will completely undermine the people's confidence in our social and economic setup, because the midway's gambling operations are the most brazen manifestations of the maladjustment of our economic order.

—DUBITA,
Principal, Railway High School

One's Own Country

Editor, Bulletin—I read in your paper under the heading "Want Friends Not Fools," and this is my reply to the one who calls himself a "True Canadian."

First, who do we think we are?

We do not think we are anyone except British and proud of it. No we do not expect things handed to us on a silver platter. But what you must be silver platters, we can work the same.

Ordinarily, a private citizen engaging in any one of the various shady devices common on the midway, would find himself behind bars in twenty-four hours. Yet certain leeches there, are allowed to entice unsuspecting tourists and fleece them by taking advantage of their credulity and the hope that the "gambling joints" offer them a reasonable chance to win.

If such shady business is allowed to continue untrammelled, it will completely undermine the people's confidence in our social and economic setup, because the midway's gambling operations are the most brazen manifestations of the maladjustment of our economic order.

Smiles

Hustler—"I don't know what Bill does with his money. He was short yesterday and he's short again today."

Hustler—"He is trying to borrow from his money."

Wife—"I've been asked for a reference for our last maid. I've said she's lazy, imprudent and impatient. Now can I land anything in her favor?"

Husband—"You might say that she's got a good appetite and sleeps well."

From Today's News

By DE WITT MACKENZIE

One of the great human dramas of our time is the defiance of Russia by Marshal Tito, Yugoslav dictator who has been outlawed by the Soviet for pursuing nationalism for his country.

More than a year ago Tito has been expelled from the Cominform (Communist Information Bureau) and has since then been working to bring him to his knees. It is obvious that the Kremlin order has been to starve him out, and members of the Cominform (Communist Information Bureau) have been following a strategy to bring him to his knees.

Trade ties have been cut between Yugoslavia and four Communist countries: Czechoslovakia, Hungary and Poland. Traffic with Russia has been reduced to a trickle.

Tito's reaction was made clear in a speech. He declared that Yugoslavia would trade with the west for the things she needs, provided no political strings are attached.

At the same time he announced officially that Yugoslavia is looking for loans to the tune of \$200,000 from the international bank. Approval could ease a lot of Yugoslavia's economic growing pains.

Here in North America we can even afford the luxury of incompetent politicians, crude parties and all the waste of the high pressure ad campaign. Yet our real problem remains how to distribute the abundance that is already a fact—or already a plain possibility.

Europe's inescapable problem is security. North America's inescapable problem is abundance.

Happier Postscript

Here is a happier postscript to the true dog story I wrote just before sailing for Europe.

Readers may recall the case of the dog whose beloved master, a young Englishman, was frozen to death in an out-of-season cabin on a ship bound for the injured dog in a veterinary hospital several hundred miles away.

Now, word from the dog's owner, a young Englishman, was frozen to death in an out-of-season cabin on a ship bound for the injured dog in a veterinary hospital several hundred miles away.

Now, word from the dog's owner, a young Englishman, was frozen to death in an out-of-season cabin on a ship bound for the injured dog in a veterinary hospital several hundred miles away.

ONE MAN'S VIEWPOINT

Federal-Provincial

Conference Subject

Should Be Revived

By Stan Ross

Recently an attempt was made to revive interest in a new federal-provincial conference. Dr. Cross expressed himself as interested in seeing one held. Other comments were passed. But the issue seems to have subsided again.

Yet there is probably no other matter of such vital interest nor urgent necessity as a conference on federal-provincial matters and the longer it is delayed, the longer we shall miss the benefits which might result.

Surely after their decisive victory, the federal government could have little fear of holding such a conference and certainly after what happened in Quebec and Ontario, those governments should no longer be quite so anxious to sabotage a meeting as they were the last time.

Before some other dividing issue has a chance to crop up, it

would seem that a conference should be held to consider many matters.

Taxation is only one subject for discussion. Taxation is important and it would seem hardly likely that Ontario and Quebec would want to continue their double tax payments for the sole reason of blocking the rest of the Dominion.

Then there is the matter of health. Again, these stop-gap methods are far less satisfactory than a practical national plan providing relief for the sick without an unreasonable cost and permitting some degree of uniformity across the country.

There is much that is debatable about what Canadians would like in a health plan, but there is little point in any debate so long as the whole business is allowed to dangle as a disjointed sort of assistance plan in which some get it and some do not.

Will Impede Progress

There is also a constitutional issue and until that is solved Canadian progress will continue to be impeded. It is disheartening to think that in a modern nation we are so hopelessly that we cannot even consider a constitution without the unanimous consent of all interested parties which we simply cannot change our constitution even to remedy some of the glaring defects.

Surely the time has arrived when some democratic means for altering provisions of the constitution could be agreed upon to say nothing of finding some democratic means for guaranteeing certain necessary rights in our constitution, which we cannot do at present—at least not in a way that would be of any legal significance.

It is surely anomalous when a provincial government must pass legislation to ratify something it wants the Dominion to handle, and yet be faced with the question of whether or not even legislation by both the province and Dominion is going to be valid.

The cold fact is that there are so many points that require attention and agreement that no one conference could ever deal with them all. It is something that is going to require years of work and years of careful study.

We have a long way to go before we iron out all these matters and the longer we delay in getting started, the longer it is going to be before we can reap even a few of the possible benefits.

Emore Philpott

Best Part Of Going Away Is Arriving Back Home Again

PHILPOTT

Some writers have made a lot of money by repeating in a thousand variations, the obvious sentiment that there's no place like home.

Home always looks good after you have been away on a trip. You have the best advantage of the summer holiday, it is better than ever to yours truly after a journey which lasted four months, and in which you covered quite a little patch of this queer sphere called the earth.

Even when I cross the border into the rich, mighty and friendly U.S.A. I come home to Canada feeling thankful that I was born in Canada, and that I decided to stay here when I grew up.

That sentiment is a thousand times stronger, returning from Europe. For the fact is that Europe cannot of herself solve the problems of Europeans. To speak of the most elementary technique of the most elementary technique, Europe cannot even feed her own population.

Given even a government of superior or saintly, Europe can not live on her own resources. She either has to exploit other areas, or she has to live on some system of international charity.

Here in North America we can even afford the luxury of incompetent politicians, crude parties and all the waste of the high pressure ad campaign. Yet our real problem remains how to distribute the abundance that is already a fact—or already a plain possibility.

Europe's inescapable problem is security. North America's inescapable problem is abundance.

WHITE SMOCKS

TODAY'S MESSAGE

The Power of Example

"People look at me six days in the week," a clergyman once said, "to see what I mean on the seventh." In emphasizing that example is more potent than precept, the minister was underscoring St. Paul's admonition: "Walk in love, as Christ also hath loved us."

It is through good example that conscientious parents mold the pattern of their children's lives. But children are not the only ones who are guided and inspired by the examples of others. We are all—youth, students and grown-ups alike—susceptible to the good—or bad—influence exerted by others.

It is true that Christ set a perfect and all-sufficing example for anyone who seeks to follow His way. But we are weak, human, creatures who need also the constant stimulus that comes from seeing other mortals trying to shape their lives and actions in conformity with the Supreme Model.

But just as we are edified and encouraged by good example, so are we obliged to make our own lives an edification, especially to those who may be weak or unduly prone to temptation.

It is impossible not to be an example to someone. Mothers and fathers cannot prevent children from imitating their manners or conduct. The lives of statesmen and politicians can set the pattern of public morality. A saintly churchman causes less holy men and women to look deep into their own souls to discover how they, too, can become more pleasing to God.

If we do not set a good example, then there is a malice or lack in us that may be to our own spiritual undoing. We cannot pretend that what we do or say has a merely neutral influence. We may avoid causing serious scandal by being so successfully conscious of our failings or sins. But the aim total of our daily living must have one of three results.

Firstly, by our lives we may help others to be good; secondly, we may encourage weak souls to fall into ways of sin; and thirdly, we may help to create the pernicious notion that virtue and vice are only theological ideas which no one in this modern age bothers to take too seriously.

COME TO CHURCH THIS SUNDAY

Newsmen Get Insight Into Mission Works

New York newsmen got an insight last week into one of the most impressive phases of Christian missionary work—that carried on by Protestant and Roman Catholic medical missionaries in parts of the world where millions of people still lack the benefits of modern medicine.

When reporters accompanied Dr. Albert Schweitzer, rated the world's foremost Protestant medical missionary, who is now on his first visit to the United States, who has been selected medicine as a means of serving humanity.

"Because in medicine you can act without having to talk,"

These words of a man who gave up a brilliant promising career as a musician and theologian to be a doctor in Lambaré, Africa, say much more than might appear.

For more than a century, Christian missionaries have recognized that works of social service must lie at the root of all missionary activity.

In other words, it is not enough to preach the Gospel to the peoples of China, Africa, or elsewhere—they must be shown Christianity in practice and action.

Twentieth-century medicine have been linked together since the earliest Christian missionaries devoted themselves to the sick and needy, but organized, professional medical missions are comparatively modern.

Prior to the twentieth century, Protestants were almost the only ones who sought to set up medical missions. But today, Protestants and Catholics are conducting a far-flung medical apostolate of ever-growing proportions.

In the United States, as in other countries, virtually every major Protestant denomination sends missionaries abroad earmarked sizable sums of money for the upkeep of hospitals, dispensaries, and clinics, and the maintenance of doctors and nurses in mission lands.

The same is true of the Roman Catholic Church, whose apostolic activities include thousands of missionaries specially qualified as nurses and hospital administrators.

Musician Sees More Interest In Sacred Songs

ALFRED NY, widening public interest in sacred music was evidenced at the first Church Music Institute sponsored by the National Association of Church Musicians.

Dr. Helen A. Dierckx of New York, composer of sacred songs, 60 music, both as composer and choir director from five states that her interest was based on three factors: the establishment of a sacred choir, the rapid increase in the home of religious music, and the revival of the sacred music and the revival of hymnals to help integrate music with present-day song.

Dr. Dickinson said one of the greatest current needs of the Church is the effective correlation of the morning service so that it is a worship service and not merely a miscellaneous collection of unrelated items.

In effecting this correlation, she said, the hymnals of several major denominations have been changed in order to relate hymns to current social problems.

Luther League Urges Home Christianity

SASKATCHEWAN, Sask.—Emphasis was laid on the importance of teaching Christianity in the home and through individual congregations by speakers at the 12th biennial convention here of the International Luther League and Choral Union of the Evangelical Lutheran Church.

Other speakers insisted that youth today are in a "spiritual limbo" because of the presence of so much good people around them. The convention heard a report telling how Sunday school lessons and church services are being sent by mail and radio to thousands of American children living on farms and in isolated communities.

The report said the mail and radio device had been started in Canada and had spread to the U.S. and that 40 radio stations were now engaged in bringing worship services to them. "Who could not attend in person."

Dr. S. H. Laycock, dean of education of the University of Saskatchewan, told the delegates that rededication in Christian principles, and democratic ideals should be features of the national birthdays of the United States and Canada.

Christian Science
"Love is the subject of the Sunday Lesson-Sermon in all Christian Science churches. It is exemplified in passages like these: 'Ye call me Master and Lord, and ye say well, for I am I. I then, your Lord and Master have washed your feet, ye also ought to wash one another's feet' (John 13: 12-14). 'We must go and do likewise, else we are not improving the great blessings which our Master worked and suffered in heaven to bestow upon us' (Matthew 23: 12). 'Ye are the light of the world. A city that is so placed upon a hill cannot be hid' (Matthew 5: 14-16)."

Bible School

City Minister Japan Bound

On Sunday evening at 7:30 in Beulah Tabernacle, Dr. T. J. Bach, Chicago, General Director Emeritus of the Evangelical Alliance Mission, will present to Rev. and Mrs. Ken McVety, outgoing missionaries to Japan, the official commission granted to missionary candidates by his Society.

Dr. Bach, himself a veteran missionary who first served in South America in 1904, was from 1928 to 1946 the general director of the Evangelical Alliance Mission, then known as the Scandinavian Alliance Mission and now through 400 missionaries serving mission fields in Africa, China, Japan, India, Mongolia, Pakistan, Portugal, South America, Southern Rhodesia and the Tibetan Frontier.

The candidates, Mr. and Mrs. Ken McVety, are the son and daughter-in-law of Pastor and Mrs. H. J. McVety. Mr. Ken McVety is a graduate of Central Collegiate and the Western Canadian Bible Institute of Regina. Mrs. Ken McVety, formerly Miss Olive Archer of Vantage, Sask., is also a graduate of the Western Bible Institute.

Dr. Bach will be guest speaker in the Sunday evening service at Beulah Tabernacle. His address will be rendered in both the morning and evening services at the McVety Quartet.

Rev. R. A. Kille, B.A., B.D., S.T.M.

PRESBYTERIAN GIVES LUTHERS HOSPITAL

HOLLYWOOD, Cal., July 16.—Dr. W. H. Parsons, a Presbyterian surgeon, announced that he and two associates were making an outright gift of their hospital and clinic in Vicksburg, Miss., to the Lutheran Laymen's League of the Lutheran Church—Missouri Synod. The announcement was made at the League's 57th annual convention here.

The hospital, a \$750,000 institution, consists of 100 rooms and last year served 3,300 patients. Associated with Dr. Parsons are Dr. I. C. Knox and Dr. W. K. Purks.

In making his announcement, Dr. Parsons said he was favorably impressed by the missionary zeal and efficient management of the Lutheran League.

OIL

Calmar West 1 Extends Field

By Don Flach

Southwestern limits of the Leduc oilfield were extended for another half-mile when Calmar West No. 1 blew in yesterday with apparently good pressure. Production possibilities of the well have not yet been determined as tanks and separators to handle the flow were not yet installed. Opinions of witnesses to the blow are to the effect that it will make a good D2 producer.

It is planned to turn the well into tanks Sunday afternoon at 2:30 when officials of the company which is entirely locally financed will be on hand to witness the operation. Production will then be taken. Well is bottomed at 5,188 feet.

On completion of the well, plans have been prepared to drill a second on lot 14-31-49-26-64 immediately to the east on quarter section held by the company.

GULF-MARR TESTING
After months of laborious preparation, Gulf-Waller-Marr at Pincher Creek has run its first productive test in the Madison limestone. Recovery from the test was 152.8 barrels of light crude and a gas flow at the rate of 6,300 cubic feet daily. A quantity of water, 695 barrels, was also obtained in the test. Further testing is proceeding.

During the 16-hour test of the well, which was set at 12,100 feet, the well had been drilled out to 12,700 feet and was later plugged back to 12,448 feet when water was encountered near the bottom. This is the second deep test well completed to this depth in the Pincher Creek area by the company. A

Grass Cattle Prices Decline During Week

OTTAWA, July 30.—(CP)—Seasonally-increasing numbers of cattle in just modern grass cattle arriving at terminal markets during the week forced prices on the grass cattle to decline in the Agriculture Department's reports in its weekly livestock review.

Any cattle of good quality showing evidence of grain feeding held prices steady. Export buying was light.

Hog prices following last week's sharp advance, declined downward in the east and in Alberta. Receipts of 6,000 cattle plus 800 carried over from the previous week gave Toronto a total offering of 7,400 head and it was estimated that about 600 plain cattle would be unsold at the close. Prices held steady on the small numbers good and choice steers and heifers but cows and bulls were \$1.50 lower in the east and in Alberta.

Imperial Lty. widest about five miles west of the north end of Redwater oilfield recovered 550 feet of drilling fluid and 1,200 feet of test following swabbing operations it established a potential of 1.51 barrels during eight hours of testing.

New starts are No. 21 which is rising up and Imperial Redwater No. 23 which has been spudded and is drilling at 150 feet.

Imperial Lty. widest about five miles west of the north end of Redwater oilfield recovered 550 feet of drilling fluid and 1,200 feet of test following swabbing operations it established a potential of 1.51 barrels during eight hours of testing.

Another Imperial widest, Sprucefield No. 22, which has been spudded and is drilling at 150 feet.

Imperial Lty. widest about five miles west of the north end of Redwater oilfield recovered 550 feet of drilling fluid and 1,200 feet of test following swabbing operations it established a potential of 1.51 barrels during eight hours of testing.

Markets Holding Near Rally Level

Industrials Advance 1.64;
West Oils Dip 2.10 In Week

TORONTO, July 30.—(CP)—Stock markets maintained the level of their summer rally this week, but trading slowed in the final two days, with slightly easing tendencies.

At the moment it looks as though there are encouraging news in need to set them on any new upward movement. This may come with the currently more hopeful view of American business conditions, and in fact, the market rise of recent weeks probably is a reflection of it.

That there was a summer rally at all is interesting because it had in back the rather discouraging international, trade and finance situation. Under the new tariffs it is possible to send parcels from Edmonton to Britain for 76 cents per pound with a minimum charge of \$2.50.

A reduction in air cargo charges was announced by J. S. Graham, district traffic and sales manager. Under the new tariffs it is possible to send parcels from Edmonton to Britain for 76 cents per pound with a minimum charge of \$2.50.

International Moves Dominate Economic Outlook

TORONTO, July 30.—(CP)—International political developments continue to dominate the economic outlook.

The United States Congress, having approved the Atlantic Pact, now is considering the expenditure of \$1,000,000,000 for foreign aid, including the European Recovery Program; and another of \$1,450,000,000 for arms and munitions.

Congress is more so happy as it considers these proposals and may refuse to go all the way on administrative requests, but force of world conditions seems likely to make it accept most of them.

Worsecase to ERP officials is such proposals as one now before Congress, that \$2,000,000,000 of ERP funds be earmarked for the purchase of United States surplus farm products.

ERP administrators, emphasize time and again that the purpose of the program is to put Europe back on its feet and not to provide direct help to North American producers.

Worsecase in the whole western world is the growing prospect that Europe would be self-sufficient when ERP runs out in 1953.

Two contrary facts face one another: one that the western world would be self-sufficient when ERP runs out in 1953, and the other that present procedures are falling short of guaranteeing that the collapse won't take place.

Carloadings Show Increase
OTTAWA, July 30.—(CP)—Carloadings continued a recent upward trend during the week ending July 25, to 14,528 cars from 13,310 cars for the previous week, but was lower than the 18,423 cars a year ago, the Bureau of Statistics reported yesterday.

Increases over the 1948 figures were shown in loadings of grain, ore, gasoline and petroleum. Decreases were noted in loadings of livestock, pulpwood, lumber and woodpulp and paper.

The price of No. 1 Canada western barley is fixed by the board on the same act and order in council, and the remaining prices fixed in the price of No. 1 Canada western barley.

In the case of No. 1 Canada western barley, the price of \$2.50 a bushel is fixed, with the remaining prices fixed in relation to the price of No. 1 Canada western barley.

Until street margins to be used next season have been fixed, the board said it will not be possible to release street price cards for oats, barley or flaxseed, 1949-50 season. Pending issuance of these street price cards, deliveries of the three commodities must be on a storage basis.

Price list for Canada western oats season 1949-50 in carload lots, based on store Fort William-Port Arthur.

Chicago Grain Closes Lower

CHICAGO, July 30.—(AP)—Grain today shut out to a weak start and never showed any rallying power on the board of trade. Dealings were fairly active during the first 30 minutes, but after that the market just drifted along with the trend lower.

In wheat there was some disappointment over trade reports for Kansas City. Commodity Credit Corporation officials had not bought any cash grain yesterday, as some traders had expected it would. The cash grain price was lowered in the southwest market today.

Wheat closed 1 1/4¢ lower, corn 1 1/4¢ lower, soybeans 1 1/4¢ lower, oats 1 1/4¢ lower, rye 1 1/4¢ lower, barley 1 1/4¢ lower, and clover 1 1/4¢ lower.

Wheat: Sept. 1.28 1/4¢; Dec. 1.19 1/4¢; March 1.18 1/4¢; May 1.17 1/4¢. Corn: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Soybeans: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Oats: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Rye: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Barley: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Clover: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢.

Wheat: Sept. 1.28 1/4¢; Dec. 1.19 1/4¢; March 1.18 1/4¢; May 1.17 1/4¢. Corn: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Soybeans: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Oats: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Rye: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Barley: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Clover: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢.

Wheat: Sept. 1.28 1/4¢; Dec. 1.19 1/4¢; March 1.18 1/4¢; May 1.17 1/4¢. Corn: Sept. 1.18 1/4¢; Dec. 1.17 1/4¢; March 1.16 1/4¢; May 1.15 1/4¢. Builders

Homes Exposition Plans Completed

House Builders Group Sets Oct. 17-22 As Dates For Show

Definite plans are now completed for the staging of a Better Homes Exposition in Edmonton during the week of October 17 to 22, it was announced by Gordon Clark, president of the Edmonton House Builders' Association, which is sponsoring the show in conjunction with the National House Builders' Association, Inc., Toronto.

The purpose of the exposition is threefold, according to the statement made by D. R. Innes, secretary of the local group. It will demonstrate to the general public the enormous productive capacity of private industry, which has enabled us to produce an unprecedented volume of housing. It will display and demonstrate new materials, equipment, and techniques—the result of increasing development in the building industry. It will show the potential home-seeker and home-builder the newest, best and most economical innovations now being employed by house builders, so as to bring the cost of housing within the range of the "lower income" families and home planners.

GORDON CLARK CHAIRMAN

Exposition committee headed by Gordon Clark as chairman, is the authority for the statement that the show will be held, will be transformed into a veritable "show palace" where every phase of the building industry will be on "display" for the general public to examine and inspect the products of Canadian manufacturers of appliances, materials and innovations that makes for the "Better Homes for Better Living."

Interior decorations, drapes, carpets and rugs, Venetian blinds as well as furniture will be shown for the edification of "Mrs. Housewife" whose prime interest is making the home a more livable one and yet confine her expenditures to within the budget set aside for such improvements.

New appliances for the kitchen as well as new plumbing requisites for the bathroom will be displayed and special attention will be given to exhibits of landscaping. Recreation rooms will be of prime importance since this part of the house is now developing a trend for being used as a workshop or hobby den where the family may gather for an evening's pleasure and fun. For the man of the house there will be many exhibits of new

gadgets that lend to make his "chores" more pleasant and less exacting.

COMMITTEES NAMED

At a meeting of the Edmonton House Builders' Association committees were named to assist in the huge task of assembling a home show comparable to the recent such shows held in many other communities.

The home show committee consists of: Gordon Clark, president and chairman, W. Whyte, R. Sheridan, R. Grady, Steve Bradley, Harold Dickenson, Floyd Johnston. Advisory committee is comprised of: E. C. Manning, premier of Alberta; His Worship Mayor H. D. Ainslie; A. L. Burrows, president Chamber of Commerce; Herbert G. Turner, secretary Edmonton Trades and Labor Council; Gordon Wynn, president Alberta Association of Architects; August Maure, president Edmonton Builders' Exchange; C. Clark, president Retail Lumber Dealers Association; C. Beckett, representing Plasterers' Association; Ralph H. Douglas, Central Mortgage and Housing Corporation; Ed Lamb, president Mortgage Loans Association; R. E. Maundrell, president Edmonton Furniture Dealers' Association; Thorne, president of the Edmonton plumbing wholesalers' committee; H. M. Cullen, representing wholesale hardware; Stan Skuse, president Edmonton Electrical Association; D. E. Mould, president Alberta Branch of the National Association of the plumbing and heating contractors of Canada; J. H. Keeler, president Master Sheet Metal Workers' Association; Ray Milner, Northwestern Utilities. Exposition headquarters have been opened at 1014 Jasper Ave.

CHEAP OVERHEAD PARKING is claimed for new machine designed in Portland. Cars are handled automatically by small lift within a mobile elevator. Lift moves car into elevator and then, when it reaches the desired parking level, puts it in stall. System triples capacity of single level parking lots.

Forced Labor Charge Denied by Russians

LONDON, July 30.—(AP)—The Moscow radio today accused Britain and the United States of talking about forced labor in the Soviet Union "to disguise the fact that slave labor exists in capitalist countries."

The British delegate to the United Nations Economic and Social Council made public in Geneva, Switzerland, July 22, documents he claimed proved forced labor is an established policy in the U.S.S.R. Britain officially expressed the belief about 10,000,000 Russians, or 10 per cent of the country's working population, are in forced labor camps. The Economic and Social Council is investigating alleged Russian slave labor under a United States motion of March 7. This motion called for a UN commission to investigate conditions inside the U.S.S.R.—a move denounced by Russia as a British and American plot to get spies into her territory.

CRIMINAL CORRECTION

Today's Moscow broadcast, in English, struck back at the British charges. "The Soviet system corrects criminals while the capitalist penal system destroys them completely," the broadcaster said. The broadcast said the Russian category of law-breakers doing work intended to reform them and that they are well treated. They work eight hours a day for good pay, the commentator said, and their "production quotas are not higher than the customary ones." "People who by their honest labor prove they have reformed are released before their sentence is up."

Canada's Milk Production Up

OTTAWA, July 30.—(CP)—Production and sales of milk in Canada are going up, the Bureau of Statistics reported yesterday, but butter consumption is going down.

Canadian farms produced an estimated 1,761,000,000 pounds of milk during May, a gain of 91,000,000 pounds over May, 1948. Sales of fluid milk and cream climbed to 339,406,000, a rise of about 300,000 pounds over the same month last year.

Domestic disappearance or consumption of creamery dairy and whey butter during May declined 3,000,000 pounds to 26,750,000—a decrease of 9.7 per cent over the same period a year ago. On a per capita basis consumption amounted to 2.06 pounds, compared with 2.31 pounds last year.

BIRTH OCCURS AFTER DEATH

BALINA, Kas., July 30.—(AP)—A baby boy was born by surgery at a Salina hospital Thursday night, 20 minutes after the death of the mother from polio.

Mrs. Don Allen, 26, died from bulbar poliomyelitis. The baby had not been expected until mid-August. The boy, weighing five pounds and 10 ounces, was reported in good condition.

"The Kings Garden"

HAROLD C. BECKETT, MRAIC
22 CHATHAM ST. N. WINDSOR

THE "KINGSGARDEN"—The popularity of Cape Cod style houses has continued for years. The merit of such design is proved and is most adaptable for typical Canadian climatic conditions. It is, however, important that the general plan be arranged to include the conveniences now available which make for pleasant living. Also the plan should be so engineered so that waste in timber lengths be cut to a minimum. A study of the "Kings Garden" plan shows many advantages. By using the graphic scale the exact length of wall space can be determined. This is helpful in visualizing how one's own furniture might fit into the finished scheme. The overall width is 41'6" including the attached garage. Cubical contents are 21,300 feet which indicate economy. This is another in a popular series of home designs prepared by Harold C. Beckett, MRAIC, 52 Chatham St. Windsor, for readers of the Bulletin.

\$3 Million Seal Catch On Way to Fur Markets

VANCOUVER, July 30—(CP)—From the fog-shrouded Pribilof Islands in the far northern Bering Sea a \$3,000,000 cargo soon will be headed for world markets.

On the rocky islands north of the Aleutians, hunters have completed the annual hunt for fur seals, bagging a total of 71,000 skins. The United States Navy cargo ship *Titanica* will bring the skins to Seattle where Canada's share of the annual fur seal kill will be delivered to a Canadian fisheries officer.

SEALS PROTECTED

The seals are protected by international treaty, and only United States government hunters are allowed in the Pribilof Islands, a chain of four islands, fog-covered most of the year. Canada gets 20 per cent of the big catch and this year the federal treasury will receive between \$200,000 and \$700,000 for the skins. The United States will receive 90 per cent.

The valuable furs—which will be made into coats worth as much as \$1,000 for the fashion centres of

the world—are packed in huge racks for shipment to Seattle.

SOLD AT AUCTION

From there, the skins are sent to St. Louis, Mo., for processing, and later will be sold by auction in both St. Louis and Montreal. A secret formula is used in processing, a secret known only in St. Louis and London, England.

There are millions of seals in island waters. Some estimates place them at more than 2,750,000, but the herds are protected in all seasons. United States and Canadian fisheries patrol ships guard their island rookeries.

Government hunters are helped by native Aleuts, 500 of whom inhabit the far-away islands, in the annual kill.

The Bishop's ring is the name given to a corona or halo near the sun.

Horoscope

By FRANCES DRAKE

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

FOR SUNDAY, JULY 31, 1949

March 21 to April 20 (Aries).—All persons born in this zodiac sign during this happy SUNDAY will find that their present activities are in fact, you will be very successful in your work and in your life. Don't strain.

April 21 to May 20 (Taurus).—When you look at the stars, you will find a happy, improve a talent, and you will be very successful in your work and in your life. Don't strain.

May 21 to June 20 (Gemini).—Your enthusiasm will be very successful in your work and in your life. Don't strain.

June 21 to July 20 (Cancer).—A peak day for your plans and activities. Spread cheer and don't forget to smile.

July 21 to August 20 (Leo).—You, too, will be very successful in your work and in your life. Don't strain.

August 21 to September 20 (Virgo).—Your first success will be in your work and in your life. Don't strain.

September 21 to October 20 (Libra).—Your success will be in your work and in your life. Don't strain.

October 21 to November 20 (Scorpio).—Your success will be in your work and in your life. Don't strain.

November 21 to December 20 (Sagittarius).—Your success will be in your work and in your life. Don't strain.

December 21 to January 20 (Capricorn).—Your success will be in your work and in your life. Don't strain.

January 21 to February 20 (Aquarius).—Your success will be in your work and in your life. Don't strain.

February 21 to March 20 (Pisces).—Your success will be in your work and in your life. Don't strain.

March 21 to April 20 (Aries).—Your success will be in your work and in your life. Don't strain.

April 21 to May 20 (Taurus).—Your success will be in your work and in your life. Don't strain.

May 21 to June 20 (Gemini).—Your success will be in your work and in your life. Don't strain.

June 21 to July 20 (Cancer).—Your success will be in your work and in your life. Don't strain.

July 21 to August 20 (Leo).—Your success will be in your work and in your life. Don't strain.

August 21 to September 20 (Virgo).—Your success will be in your work and in your life. Don't strain.

September 21 to October 20 (Libra).—Your success will be in your work and in your life. Don't strain.

October 21 to November 20 (Scorpio).—Your success will be in your work and in your life. Don't strain.

November 21 to December 20 (Sagittarius).—Your success will be in your work and in your life. Don't strain.

December 21 to January 20 (Capricorn).—Your success will be in your work and in your life. Don't strain.

January 21 to February 20 (Aquarius).—Your success will be in your work and in your life. Don't strain.

February 21 to March 20 (Pisces).—Your success will be in your work and in your life. Don't strain.

March 21 to April 20 (Aries).—Your success will be in your work and in your life. Don't strain.

April 21 to May 20 (Taurus).—Your success will be in your work and in your life. Don't strain.

May 21 to June 20 (Gemini).—Your success will be in your work and in your life. Don't strain.

June 21 to July 20 (Cancer).—Your success will be in your work and in your life. Don't strain.

July 21 to August 20 (Leo).—Your success will be in your work and in your life. Don't strain.

August 21 to September 20 (Virgo).—Your success will be in your work and in your life. Don't strain.

September 21 to October 20 (Libra).—Your success will be in your work and in your life. Don't strain.

Big Four at the Crossroads

CALGARY, July 30—The Big Four Buffalo players which John Diney and associates have been cooking along these three seasons, appears to be at the crossroads tonight.

Seething discontent in the ranks of last place Calgary Buffaloes may bring on a situation within the next 48 hours that won't be pleasant to contemplate.

Frankly several of the key men on the Buff roster— if an injury or a trade have been of late and be considered to harbor key men—are thinking of pulling out.

"Packing it up" is the way a number put it in the Buff dressing room last night following a horrible 10-3 defeat by the Bruins at the hands of the Bruins.

Manager Alvin Harrison, in the third inning of last night's game, threw out a signal with 45 minutes to go in the game. Harrison, in a fortuitous move, pulled out the Buff roster in an attempt to win the game.

It was a move that Harrison, who had been 1-1 in 1951, had made in the past. He had pulled out the Buff roster in the past.

Pitcher-first sacker "Stretch" Garrett also can be classed with those who say they've "had enough". Buffs committed 15 errors in their series opener against Cubs.

They were the first errors in the series.

Bufs' Beef with Irwin

For the first time in the history of the Buffaloes, the Buffs have been "beefing" with a player. The Buffs have been "beefing" with a player.

Beefing is a term that is used in the Buffaloes. It is a term that is used in the Buffaloes.

Coming on top of all their other headaches, this team of players is now facing a new one.

The Buffaloes are now facing a new one. The Buffaloes are now facing a new one.

The Buffaloes are now facing a new one. The Buffaloes are now facing a new one.

The Buffaloes are now facing a new one. The Buffaloes are now facing a new one.

The Buffaloes are now facing a new one. The Buffaloes are now facing a new one.

Look Like the McCoy

Loss of performers like Gibson, Mori, Garrett, Ron Gibbons, and one or two others reported as being fed-up, likely would deal a mortal blow to hopes of fielding a Buff team.

In which case a withdrawal would be in order and the league reduced to three teams. Almost certainly there would be little disposition on the part of the men behind the scenes and the Buffaloes would be out of the league.

The Buffaloes are now facing a new one. The Buffaloes are now facing a new one.

The Buffaloes are now facing a new one. The Buffaloes are now facing a new one.

AN OLD TRICK

THE housewife who always does the housework, the women and children. The men had gone to the creek in search of crawfish and after the men had made a batch of doughnuts, they decided to put a quiet afternoon sewing. They brought chairs out onto the front porch and settled the children at play in the yard. They tied Hippar, who has an itchy foot and frequently wanders away, to the stem of a rosebush. They provided the youngsters with a little boat of sand, shovels, chisels, and buckets and several toys to keep them occupied so the men could do on uninterrupted.

The little women had been working only a short time when fast one of the little women pointed to Ginky, who was standing in the yard. The little women had created the little women and give the little women.

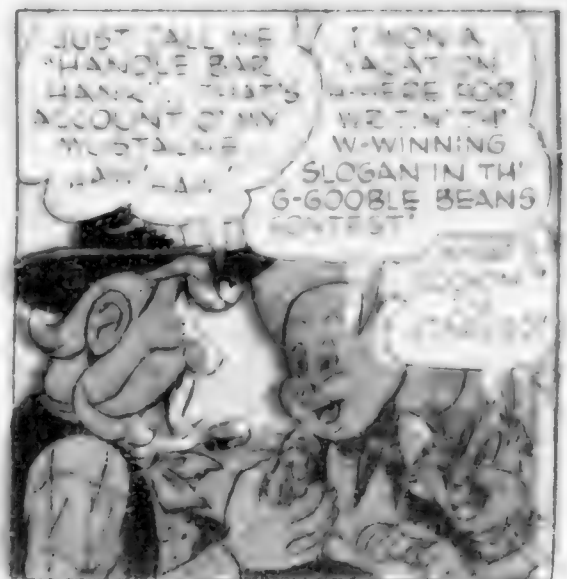

GOING FORTH

He had a workman's look on his face and the little women had the lady of the house.

The little women had the lady of the house.

OUT OUR WAY

The Willows

By William

Greedy Nations Given Lesson

NEW YORK — Recently my leg man in Sequatchie County, Tennessee, sent along a story that has been kicking around the hill country for years.

He says it might not be a bad idea to run it in my column for the edification and enlightenment of any government that's thinking of going to war in order to grab a little extra territory.

It appears that two farmers down I did eat half of it, so half the

In Tennessee, one day and one night, there were two men who were

The rich man was driving a fine, big, new, open-top car, and

the poor farmer kept crying the cow. "That's mine, that's mine," he kept saying.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

He was crying because the cow was his, and the rich man was driving it.

Fair Plans Completed At Camrose

Racing, Exhibits,
Grandstand Show
For 3rd Classic

CAMROSE, July 30.—The third annual Fair of the Camrose Agricultural Society will be bigger and better than any show of its type ever held here.

That is the enthusiastic promise of Society president Ed Schnell and secretary J. E. Stuart, who are working along with numerous other officers to have the fair work itself up to the top notch.

OPENS TUESDAY
The three-day affair, which attracts visitors from all over the district, will open on Tuesday, August 1, at 10 o'clock.

Entertainment at the grandstand will be provided by the K-H shows, returning for a second year, while the Grandstand organization has the music.

Stunt races are on tap Wednesday and Thursday.

JUNIOR CAMPS
Boys' and girls' camps are being held for young leaders. Boys will stay on the grounds in their own quarters, while girls will be housed in the fair building.

The 48-acre fair grounds are located on the south side of the city, between the C.P.R. and the Canadian National tracks.

A second "B" circuit operating in Alberta next year will again include the Camrose Fair, Westlock and Oils as members. Preliminary talks already have been held in this regard.

Camrose was a member of the present "B" circuit before the war, but its place on the circuit was taken over by the C.P.R. because the fair was not considered a "B" circuit fair.

Camrose was a member of the present "B" circuit before the war, but its place on the circuit was taken over by the C.P.R. because the fair was not considered a "B" circuit fair.

Camrose was a member of the present "B" circuit before the war, but its place on the circuit was taken over by the C.P.R. because the fair was not considered a "B" circuit fair.

Camrose was a member of the present "B" circuit before the war, but its place on the circuit was taken over by the C.P.R. because the fair was not considered a "B" circuit fair.

Two leaders of Camrose fair are Mayor Robert H. Hume, left, and J. E. Stuart, secretary of fair society. They are in charge of big crowds for the Aug. 1-3 fair.

Fair Is Reunion For the Pioneers

EDMONTON BULLETIN

CAMROSE IS A PLACE THAT KNOWS ALL ANGLES

When it comes to last summer's activities, Camrose is a place that knows all angles. The people of this town are engaged in the most of every kind of activity. The town is a place that knows all angles. The people of this town are engaged in the most of every kind of activity. The town is a place that knows all angles. The people of this town are engaged in the most of every kind of activity.

Church Celebrates 40th Anniversary

St. John's Lutheran Church celebrated its 40th anniversary on Sunday, July 24. The church was founded in 1909 and has since then been a place of worship and community for the people of Camrose. The anniversary was celebrated with a special service and a reception for the members and friends of the church.

Meeting Creek Gets 'Fire Water'

Meeting Creek, July 29 — Citizens of Meeting Creek have organized their own fire protection committee. The committee was formed to provide fire protection for the town of Meeting Creek. The committee will be responsible for the purchase and maintenance of fire equipment and for the hiring of fire fighters.

Camrose Sea Cadets Off To Vancouver

The Camrose Sea Cadets are off to Vancouver for a week of training. The cadets will be participating in a variety of activities, including swimming, sailing, and first aid training. The trip is being organized by the Camrose Sea Cadets Association.

Camrose Fair Presents Best Foot for Children

CAMROSE, July 30—As was the case last year, Tuesday, the first day of the 1949 Camrose Agricultural Society Fair, will be mainly for the children. Activities for the day all are planned towards the farmers of the district. At the livestock competitions as well as domestic and fancy work where the juniors are concerned will be run off on that day although there is nothing to keep the youngsters from entering the senior section of the fair.

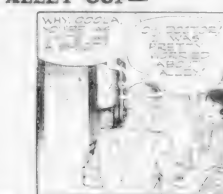

Summer Course Work Displayed

VERMILION, July 29—Summer course for boys and girls at the Vermilion district opened Monday at the School of Agriculture. Sixty-eight boys and sixty-eight girls registered. Program includes preparation of exhibits, competitions in judging and showmanship in exhibits at an agricultural fair. The course is sponsored by the Alberta Government and the Vermilion Agricultural Fair Association. It will end Saturday.

The Alberta Wheat Board sponsored a series of lectures at the Vermilion fair. Dr. J. H. P. Macdonald, of the University of Alberta, gave a lecture on the importance of wheat in the Canadian economy. The lecture was well attended and was a success.

Wainwright Cadet Going To Montreal

WAINWRIGHT, July 30—CPO John Mackenzie, of the Wainwright R.C.M.C. Cadet Corps, was chosen to represent his corps at the Empire meet of sea cadets to be held at Camp Bowring, near Montreal. He will be accompanied by a Canadian boy there will be representatives from the United Kingdom, New Zealand, South Africa, Australia and groups from Sweden, and the Netherlands. Purpose of the camp is to bring some of the youth of the Commonwealth of Nations together that they may exchange ideas. CPO Mackenzie was chosen due to the high marks he received in recent examinations. He will hold the senior St. John Badge.

A train which was carrying a jinxed man, killed him. The man was killed by the train. The train was carrying a jinxed man. The man was killed by the train.

Scholarships Are Awarded

VERMILION, July 26 — About 160 boys and girls, each representing a junior farm or girls' club, enrolled for a week's short course last week-end. Each attending was a winner of the proficiency scholarship in their home club. A banquet closed the week-end. Mary A. Malcom, SS Paul Mrs. R. E. Wood, H. Anderson and George Beatty, Miss Cecil La Plante, were the winners of the scholarships. The winners of the scholarships were: Lavinia, John, Kelly, Lavinia, Miss Cecil La Plante, and Gerald Amrose of Lake. He was the winner of the scholarship.

Names Make News And History, Too

By Ken Liddle

And a name like Flat-bush may make you wonder whether it was settled before or after the bush was flattened.

But the provincial department of economic affairs, in an article about the geographic history of Alberta, has pointed out that the name Flat-bush is a name of a place.

It is interesting to learn from the publication that the name Flat-bush is a name of a place.

It is interesting to learn from the publication that the name Flat-bush is a name of a place.

City Playgrounds Picnic August 4

2,000 Expected To Attend
Program At Borden Park

Inter-playground picnic scheduled for Thursday, July 25, was postponed to Thursday, August 4. It will be held at 2 p.m. at Borden Park with 2,000 children expected to attend. Races, games, sports, contests, peanut scramble, prizes, free lunch, visit to the zoo, mechanical rides, swimming, a picnic lunch, all included on the program.

Children will meet with their home playground director at 1 p.m. and travel in a group to Borden. Each child should bring a picnic lunch and car tickets. Parents are urged to attend with small children to assist with control and supervision.

The traffic kindergarten will move to McCauley for Monday Tuesday and Wednesday of next week and will be set up at Kitchener for Friday and Saturday, August 5 and 6. It will go to Highlands for August 8, 9 and 10 and Westmount on 11 and 12, completing the present schedule at Cloverdale on August 15 and 16.

Playground visitation day, a "friendly invasion," will be held on Saturday, August 13, when Tipton, Kitchener, McCauley, Borden and Eastwood playgrounds will act as hosts to district playground children.

Parkallan—The children have been eagerly attending all sessions at this lot. Those who have not yet become regular participants in the program are asked to bring the children to the playground and take part in the Indian Day festivities, August 2, Saturday, July 30, there will be a big sand castle contest for everyone on the grounds.

Knob Hill—This beautiful playground has received a new table for handicrafts through the volunteer assistance of the men of this district. No supervision will be provided for the children Saturday afternoon because no volunteers are present to take this responsibility.

Last Monday, July 23, Terry Brotherhood became Indian Chief and Gerry Raham Powe leader during an Indian Day program. The program was complete with costume parade, pow-wow, races, prize competition, bonfire, hot dogs and a sing-song. Knob Hill will go

very busy Friday with play day for everyone at the playground.

Ritchie—Children have been going on special outings to help them become better acquainted with the city. This coming week adults and children will find recreation in attending a picture show and evening late night show. Proceeds from the show will be used to purchase play equipment. All boys and girls who have the age and who would like to go on a hike should register at the office immediately.

A music class is being formed for the 7-12 year olds and will include the rhythm band and children's records. Adults are invited to assist with the large program. Prep shows will be the special feature for the next weeks during the Wednesday and Saturday. Arrangements have been made to play violins on the playground.

Boyle Street—An exhibition and weather can alternate somewhat recently. As a result, winter coats and sand castle contest are being planned for the following week. Handicrafts and sing-song games have been quite an attraction with five volunteers in charge. The volleyball court at Tipton has been leveled and mowed resulting in this game becoming quite popular with the teenagers. A house league is now being formed.

R.C.A.F.—A visit to Eastwood via chartered bus on Saturday was well attended and enjoyed by all. The children were delighted with the lot lot equipment, handicrafts, races and lunch. A July birthday party and treasure island program will be held Sunday, July 30. This will be followed by a Fun and Frailie Club meeting which has had to be postponed for the last three Thursdays (on Wednesdays, August 17 at 8 p.m. in the drill hall, a mothers meeting will be held to plan a lot day closing day. An Indian day is also planned for Saturday, August 1.

Borden Park—A quiet week was held due to the proximity of the exhibition. Handicraft class for those 7-12 years of age under Miss Jean Whitlock has been enthusiastically attended and is planning a mothers' day party. An inter-playground picnic to be held at Borden Park is scheduled for Thursday, Aug 4. All city directors will be hand with their respective charges and all mothers are cordially invited to attend.

particularly those with younger children.

A visitation day is also planned for Saturday, Aug. 13 at Borden Park with Highlands, Riverside, Cloverdale, and Forest Heights participating. A varied program is scheduled to get underway at 2:30 p.m. Children are asked to bring a basket-lunch and to be ready to play. The playground will be decorated Saturday morning in readiness for Visitation Day.

Riversdale—A hat show and playground picnic has been postponed until drier weather. New dates will be announced shortly. A square dancing class is held every Thursday evening in the Community Hall. Handicraft sessions are proving very popular especially with the 6-12 age group. Many thanks are due Darlene Miller and Mrs. J. Marshall for their splendid cooperation and help with the younger children.

Tipton—Participation in the horseshoe tournament was cut due to the weather and fair. This tournament will be held next Wednesday afternoon. A volleyball tournament for those 12 and over will

Inlaid Linoleum—From England

Laid and Cemented in Day at No Extra Charge
Linoleum that has solid pattern right through to its back... a serviceable marble tile linoleum that should give long wear! For every floor, whether large or small, there is an appropriate inlaid pattern. Use it for halls, bath, kitchen and public rooms. There are formal straight line patterns, built from harmonizing or contrasting marble blocks. For living rooms or dens there are softer, more patterns which have a more subtle appeal. Width about 6 feet. Laid and cemented within the city limits at no extra charge. EATON'S SEMI-ANNUAL SALE, SQUARE YARD

\$3.50
